

ACCELERATED REVENUE

\$1.2 Millions of Dollars in the First 130 Days

Cash is King, the saying goes, and this is especially true during these unprecedented times. **ParaRev** reviewed closed accounts and delivered over \$1.2M in additional revenue within 130 days of our project inception with a new hospital.

Maximizing commercial and government revenue is essential to the viability of a hospital. To succeed in revenue generation requires experience, expertise, and tenacity. **ParaRev** will infuse the bottom line with cash from the closed accounts. We successfully uncovered over a million dollars in the first 4 months for a recent hospital client.

"The ParaRev team is knowledgeable, persistent, and transparent. They always deliver and find significant dollars on accounts that are at a zero (insurance) balance. Beyond truly delivering, what makes them different is that they are a team that is genuine and believes in a true partnership"
**Director of Finance
Arizona Hospital System**

Recover Revenue and Augment Your Controls

\$1.2 MILLION OF RECOVERIES BY ISSUE

- Authorization Penalty 26%
- Pending Information 26%
