

# CHARGE MASTER REVIEW

Maintaining an up to date Charge Master is a challenge for every hospital. There are ongoing updates from CMS with required additions, changes and deletions. Internal requests for new charges and changes to existing charges are ongoing. Having an outside set of experienced eyes review it in its entirety can often identify issues and locate hidden opportunities for additional revenue.

The purpose of **ParaRev Charge Master Review** is to ensure your hospital's Charge Master is up-to-date and compliant by identifying and correcting errors, compliance issues and missing charges.

The **ParaRev Charge Master Review** deliverables include: Checking invalid HCPCS/CPT® and Revenue Codes, checking line items for charge compliance and modifiers, checking valid code assignment, checking pricing internally and against fee schedules and pricing data, reporting and implementing updates. The desk review can be expanded with an "on-site review" to meet with each of the Revenue Department Managers and complemented with a "Claim Review" and on-site visit.

The screenshot shows the ParaRev Charge Master Review software interface. At the top, there is a navigation bar with tabs: Select, Charge Quote, Charge Process, Claim/RA, Contracts, Pricing Data, Pricing, Rx / Supplies, Filters (highlighted), CDM, Calculator, Advisor, Admin, RAC, CAT, PARA. Below the navigation bar, the interface is divided into several sections:

- Coding Filters:** Includes a list of filter categories such as Invalid (CPT Only, HCPCS Only, Medicaid Only), Unit of service - per ml/sq cm, Compliance - Marked, Compliance - Identified for Review, Compliance - Modifiers, Pharmacy, and Pharmacy - Self Admin Drugs - Currently Billed. There are also options for Segments, Recommended Changes, and various checkboxes for filtering by status and service.
- Pricing Filters:** Includes checkboxes for Recommended Price, Same CPT® w/ Different Price, Relative To Market (with radio buttons for Below Average, Below Midpoint, Above High), Price Below Clinical Lab, Price Below Professional Fees, Price Below DME, Price Below APC Status T, O, Q1, Q2, Q3, and Price Below APC Status S and X.
- CDM:** Includes a Department dropdown menu, Sort By (Procedure Code), and View CDM By (Summary, Detail, Excel).
- Reports:** Includes an Audit dropdown menu (Unit of service - per ml/sq cm) and a Service dropdown menu (Allergy). Below these are links to Create PDF and Create Service Line PDF.

The Reports section shows a list of audit results:
