

# PARAREV DATA MAINTENANCE

With all of the constant changes to coding and billing requirements, many organizations are overwhelmed with maintaining billing systems. Annual pricing updates are also a challenge for many facilities. **ParaRev** has the capability to assist the hospital in the implementation of updated CPT®/HCPCS codes and prices through **ParaRev's Data Maintenance Services**.

**ParaRev** can produce a custom upload file or **ParaRev** will process the price change utilizing a VPN connection and Boston Workstation scripting to set each individual price.
